Ferguson Bath, Kitchen & Lighting Gallery invites you to join us for an exciting CEU training opportunity sponsored by Hubbardton Forge®.

LED INNOVATIONS IN DECORATIVE LIGHTING
Learning Objectives:
• Participants will learn how rapid changes in LED technology affect costs, efficiency and energy use in lighting design.
• Participants will be able to compare important lighting metrics to understand how to maximize LED efficiency in their projects.
• Participants will learn about new LED options and how this innovative technology factors into light source selections of retrofit versus dedicated LED lamping.
• Participants will learn about layering and lighting design with LED and its effect on the safety, health and mood of building occupants.

1 HOUR - 0.1 CEU
Seating is limited.
Please RSVP by May 20th to Lauren Gray at 757-490-2381 or by email lauren.gray@ferguson.com.

TUESDAY, MAY 24TH
12:00 NOON
Lunch Provided
